Alien Technology Corporation and Aton SpA Secures RFID Garment Tracking Application with G&P Net of Italy
07/7/2009

Alien Technology Corporation announced its newest million plus tag RFID garment tracking installation in Europe. Alien Technology Corporation teamed with Aton SpA to provide a complete end-to-end RFID traceability solution for leading apparel designer and manufacturer, G&P Net, the producer of brands such as GeoSpirit and Peuterrey. G&P Net needed to control channel efficiencies and enhance supply chain visibility throughout Europe, so they approached Aton for a complete hardware and software solution. Their main objective was to optimize logistics and provide 100% traceability of their coats, jackets, trousers and shirts from manufacturing through distribution. RFID has provided considerable operational efficiencies for both incoming & out-going goods, as well as warehouse inventory management.
